

Global Patient Insights

New Feature Takes Industry-leading Solution Sitetrove to the Next Level

Lost when it comes to choosing study sites and investigators?

With Global Patient Insights — the industry's most comprehensive view of the worldwide patient landscape — easily locate sites with clinically relevant and diverse patient populations.

Pinpoint and prioritize countries and global sites with higher volumes of clinically relevant patient populations

Reach diversity enrollment targets with insights from a robust dataset: EHR, census, epidemiology, and medical claims data

Identify US physicians near investigators who have access to the right patients for referrals

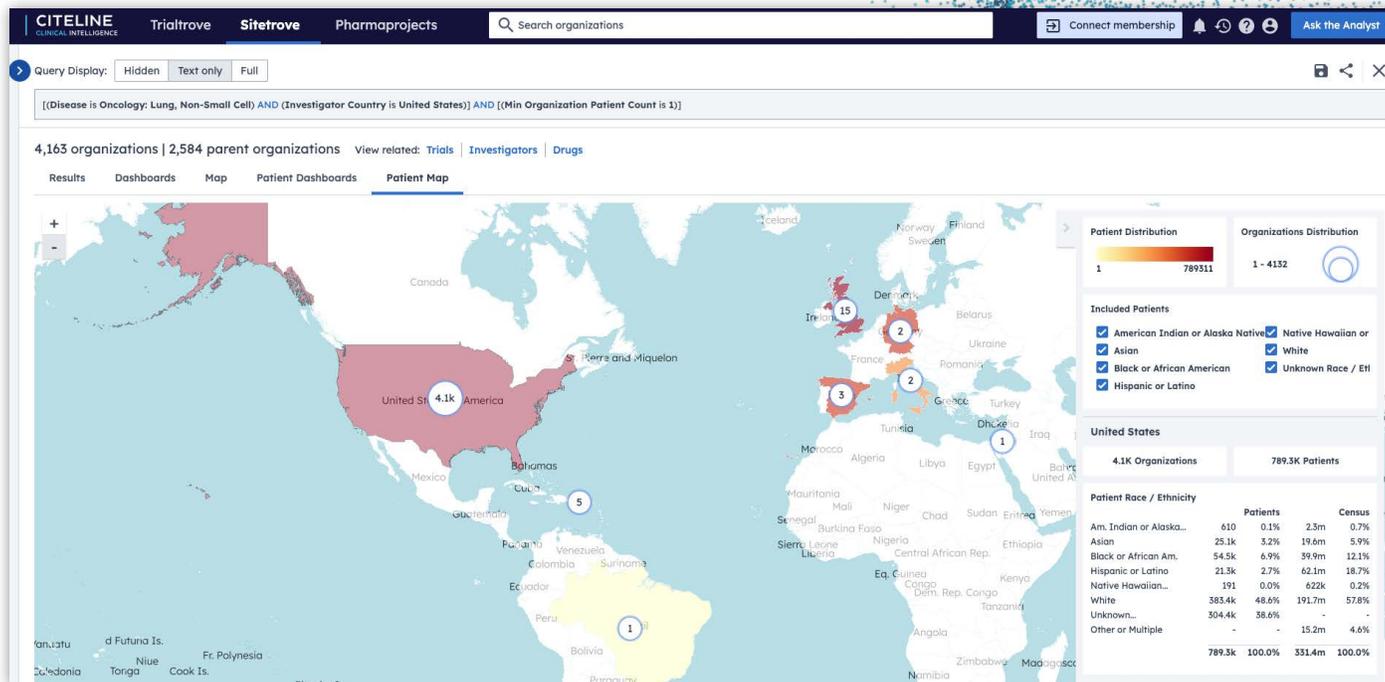

Leverage dynamic dashboards and heatmaps to **visualize patient populations**

TRANSFORMING THE WAY
YOU SEE THE WORLD

[CITELINE.COM](https://www.citeline.com)

Patient insights are provided at the global site, US investigator, and US (non-investigator) physician levels

Global Sites	US Investigators	US Physicians
<ul style="list-style-type: none"> Total patient count* Patient counts by age and gender Patient counts by race/ethnicity US patient counts by SDoH** 	<ul style="list-style-type: none"> Aggregated investigator race Investigator gender Total patient count Patient counts by age and gender Patient counts by race/ethnicity Patient counts by SDoH 	<ul style="list-style-type: none"> Name and NPI number State and additional location details Total patient count Patient counts by age and gender Patient counts by race/ethnicity Patient counts by SDoH
PLUS global census data and epidemiology data		

*All patient counts are at the ICD-10 diagnosis code level

**Social determinants of health data (SDoH) includes patient income, urbanicity, education level, transportation access

Global Patient Insights seamlessly integrates real-world patient population and diversity data with Sitetrove’s incomparable analyst-curated site and investigator intelligence.

Harness extensive insights on study sites.
